

# APPLIED PROFESSIONAL TRAINING

A Global Leader in Technology Education

To: CWA D3 Local Presidents  
Partnership Representatives

May 14, 2010

Re: Approved Education Services by APT

Dear Education Leadership,

I would like to take this opportunity to reassure all District 3 education representatives that APT has the following credentials applicable to AT&T's education and training services:

- APT is approved to provide college degree courses through its degree granting accreditation by the US Department of Education in Applied Sciences Telecommunications Technology (denoted by our .edu domain registration).
- APT is approved for Partnership "CUSTOM" classes
- APT is listed internally as an AT&T approved vendor
- APT is approved to grant Continuing Education Units through the International Association for Continuing Education & Training organization (IACET)
- APT has over 17 years continuous experience providing technical training for AT&T employees in all regions and districts

Let APT provide its reputable high standard of quality technical training programs and courses to your constituents. For those who continue to support APT, Thank you! We have new courses in development that will help your members align their skills with the technology needs of the future.

For more information about APT's education services, please feel free to contact me or our Education Representative Jeff Self (cell: 205.420.9870, email: [jself@aptc.edu](mailto:jself@aptc.edu)).

Thank you for your continued support,

Steven W. Blume; President & CEO

Master of Science Degree in Electrical Engineering & Registered Professional Engineer
